# Animal Cells

Label the organelles in the diagram of a typical animal cell. Describe the function or purpose of each organelle in the cell.

- vacuole \_\_\_\_\_
- lysosome \_\_\_\_\_
- ribosome \_\_\_\_\_
- Golgi complex \_\_\_\_\_
- cytoplasm \_\_\_\_\_
- nucleus \_\_\_\_\_
- nucleolus \_\_\_\_\_
- nuclear membrane \_\_\_\_\_
- cell (plasma) membrane \_\_\_\_\_
- mitochondria \_\_\_\_\_
- smooth endoplasmic reticulum \_\_\_\_\_
- rough endoplasmic reticulum \_\_\_\_\_
- centriole \_\_\_\_\_
